

## New Splicing Rigs from 3M Provide Solutions for Today's Splicing Needs

MS2 (MS-squared) next generation modular system splicing rigs and maintenance kits from 3M provide all the tools and parts needed for reliable multi-pair splicing. The rigs are easy to use in any kind of splicing operation and under the toughest conditions.

The MS2 rigs simplify splicing and also help lower inventories by allowing multiple jobs to be performed with the same basic components, tools and techniques. The rigs include detailed step-by-step instructions for every kind of splicing application to ensure splice integrity.

Eight rigs are available to meet varied splicing needs:

The MS2 splicing rigs 4022-M2/NXG and 4021-M2/36/NXG are complete splicing rigs designed for one- or two-person fold-back or inline splicing.

The MS2 splicing rigs 4022-M2/TMK/NXG and 4021-M2/36/TMK/NXG are complete splicing rigs designed for one- or two-person fold-back or inline splicing and provide maximum mounting flexibility.

The MS2 universal splicing rig 4045-K/36/NXG is a versatile rig designed for one-person splicing in difficult-to-reach pedestal or rack areas.

The MS2 splicing rig 4045-K2/36/FL/NXG is a versatile rig designed for one-person splicing. It allows flexibility for difficult-to-reach areas and aerial applications.

The MS2 splicing rig 4049/NXG is a lightweight, portable splicing rig.

The MS2 module maintenance kit 4026-A contains the tools necessary for re-entry of super-mini and super-mate modules. The kit may be used for splice module combinations of two- through seven-way stackable splices.
