

## 3M Telecommunications Business Launches New Web Site

3M has launched a new Web site with an old address: [www.3M.com/telecom](http://www.3M.com/telecom). Here you can find the full set of solutions used by worldwide customers to connect, protect, test and locate communications networks.

The site was developed with your ease of use in mind. Use the Solutions Tool Product Selector to find industry-proven telecommunication solutions tailored to your situation. It's fast and easy. A comprehensive suite of products for use in applications from military and government to aerial plant, central office, utilities, CATV - wherever communications networks are found - is available. Just fill in your preferences and discover the right products for your job.

The solutions tool and the complete online catalog indicate which products are compliant with RoHS and WEEE directives.

In addition, you can find what promotions are running currently, register for workshops and read the latest news releases.

### 3M Telecommunications

3M - a major force in the telecommunications industry for more than 100 years - provides practical, scalable solutions to telecommunications service providers around the world. Our proven systems optimize network testing, construction, locating and maintenance for faster, more reliable high-bandwidth transmissions. 3M provides physical media-layer capabilities for FTTP and DSL deployments from central office to customer premises. Worldwide customers rely on 3M fiber optics technologies to leverage existing infrastructure or install completely new networks. OSP magazine called us "America's favorite supplier of OSP products."

### About 3M - A Global, Diversified Technology Company

Every day, 3M people find new ways to make amazing things happen. Wherever they are, whatever they do, the company's customers know they can rely on 3M to help make their lives better. 3M's brands include Scotch, Post-it, Scotchgard, Thinsulate, Scotch-Brite, Filtrete, Command and Vikuiti.
