

New Brochure Describes 3M Solutions for CATV

3M, a major force in the communications industry for more than 100 years, has a growing set of products to help MSOs deliver reliable bandwidth and meet next-generation, full-service CATV network requirements.

Network performance, reliability and maintenance efficiency are critically important as multiple system operators vie for triple play leadership. 3M products support fiber, copper and coax networks for high-volume, interactive voice, data and video traffic, dependably supporting the cable network from headend all the way to customer premises.

A new 12-page brochure, titled "3M CATV Product Solutions," describes 3M's products for locating and marking plant; diagnostic test equipment; fiber optic management and distribution systems; fiber optic splices and connectors; fiber optic closures, dome closures, trays and accessories; copper splicing products; and network accessories.

To receive this brochure, call 3M at (800) 426-8688.

3M Telecommunications

3M provides practical, scalable solutions to telecommunications service providers around the world. From military and government applications to aerial, underground and buried plant, to central office, utilities and more, it's the widest and most comprehensive suite of products, and it's all from 3M. Our proven systems optimize network testing, construction, locating and maintenance for faster, more reliable high-bandwidth transmissions. Worldwide customers rely on 3M fiber optics technologies to leverage existing infrastructure or install completely new networks.

About 3M - A Global, Diversified Technology Company
