

3M Scotchlok Crimping Tool Covers Entire Range of Connectors

The new 3M Scotchlok connector crimping tool E9J is designed to work on Scotchlok connectors - UY, UYF, UR, UY2, UY2D, UR2, UR2-D, UP2, UAL, UP3, UPB, 211, UB2A, UB2A-D, UCC, UG and UPC - across the entire range of applicable wire sizes.

The crimping tool has mechanical advantage over applied hand force, requiring less effort to operate. It is lightweight and ergonomic, lessening user fatigue and induced errors, especially when crimping on large-gauge wire.

With an anticipated life cycle of more than 50,000 crimps, this tool can accelerate wire installations and repairs. The lightweight, hand-held tool features single-stroke, parallel crimping action and is designed to reduce craft fatigue and eliminate costly misconnects. The handles are coated with a slip-resistant red/black coating to assist in splicing with grease- or jelly-filled cable. It connects the entire range of Series 1 + 2 Scotchlok connectors without additional tooling.

3M Telecommunications

3M provides practical, scalable solutions to telecommunications service providers around the world. From military and government applications to aerial, underground and buried plant, to central office, utilities and more, it's the widest and most comprehensive suite of products, and it's all from 3M - a major force in the telecommunications industry for more than 100 years. Our proven systems optimize network testing, construction, locating and maintenance for faster, more reliable high-bandwidth transmissions. 3M provides physical media-layer capabilities for FTTP and DSL deployments from central office to customer premises. Worldwide customers rely on 3M fiber optics technologies to leverage existing infrastructure or install completely new networks.

About 3M - A Global, Diversified Technology Company

Every day, 3M people find new ways to make amazing things happen. Wherever they are, whatever they do, the company's customers know they can rely on 3M to help make their lives better. 3M's brands include Scotch, Post-it, Scotchgard, Thinsulate, Scotch-Brite, Filtrete, Command and Vikuiti. Serving customers in more than 200 countries around the world, the people of 3M use their expertise, technologies and global strength to lead in major markets including consumer and office; display and graphics; electronics and telecommunications; safety, security and protection services; health care; industrial and transportation.
