

3M Completes Acquisition of Unifam Sp. z o.o.

3M announced today that it has completed its acquisition of Unifam Sp. z o.o., a manufacturer of cut-off wheels, depressed center grinding wheels and flap discs. Terms of the transaction were not disclosed.

Unifam supplies conventional bonded wheels and flap discs used to cut and grind materials such as metallic sheet, rod, pipe and welds, for markets that include metalworking, shipbuilding, heavy equipment manufacturing and construction. Unifam currently produces products for 3M that feature 3M's Cubitron Abrasive Grain, a ceramic aluminum oxide mineral designed to deliver a higher cut rate and longer life in demanding production environments.

3M Abrasive Systems Division is 3M's "heritage business," upon which the company was founded in 1902. 3M's brands are recognized around the world, making the company a leading abrasives supplier to manufacturers of medical, electronics, aerospace, automotive and thousands of other products. 3M abrasive technologies and brands, including Cubitron, Scotch-Brite, and Trizact, mean customers can trust 3M to provide quality, innovative products and solutions for virtually every purpose – from cutting and grinding to finishing and polishing.

About Unifam Sp. z o.o.

Since 1994, Unifam has offered cut-off wheels, depressed center grinding wheels and flap discs to domestic as well as foreign markets. Manufacturing headquarters are located in Poland. With the use of computer controlled processes, the most modern machines available, and an experienced workforce, Unifam delivers world class product to many satisfied customers.
