

Electrician and Distributor Win 3M Trip to the Races

Joseph Tippet, Jr., an electrician and owner of Tippet & Sons Electrical Services in Mechanicsville, Md., has won the most recent 3M Electrical Markets Division promotion for 3M spring connectors. He bought connectors from a Rexel distributor in Lexington Park, Md. As a result, Jeff Beall of the Rexell distributorship also is a winner. Tippet and Beall and their guests will attend the NASCAR NEXTEL Cup and Busch Series Races Nov. 10-11 at Phoenix International Speedway.

In order to be a 3M NASCAR Victory Lane Sweepstakes winner, Tippet bought a jug of 3M Performance Plus Wire Connectors T/Y+ and then, using a code he found inside, went online and entered the sweepstakes. When Tippet won, the distributorship where he bought the connectors became a winner, too. Their prize includes a trip to Phoenix and attendance at the races.

There were 931 instant winners among those who went to the promotion Web site. They won either a gift card for new tires, an oil change or gas; or a NASCAR duffel bag or T-shirt.

3M connectors do more than fit your application; they also fit your hand, accommodate a wider range of wire sizes and feel good to use. 3M designs connectors that are as comfortable and easy to use as they are dependable. The complete line of 3M connectors provides a wide range of connector choices.

The 3M Electrical Markets Division, based in Austin, Texas, designs, manufactures and markets products for electrical construction, industrial maintenance, utility and industrial power, and electrical and electronic components. EMD has more than 60 years of experience serving customers with highly reliable products, including electrical wire connectors, terminals, tools and lugs; wire marking products; cable ties; and electrical diagnostic and detection products, electrical and electronic insulating tapes and papers; electromagnetic compatible products; power cable splices and terminations; high-temperature, low-sag transmission conductors; heat shrinkable tubing and molded shapes.
