

# Static Dissipative Sheet Protectors from 3M Protect Documents and Sensitive Devices

While traditional PVC sheet protectors generate static electricity, Static Dissipative Sheet Protectors from 3M are designed to be non-static generating in addition to protecting documents.

Made from durable, static dissipative polypropylene plastic, the new Static Dissipative Sheet Protectors from the 3M Electronic Solutions Division are a slim 2 mm, allowing more pages to fit in a binder. Non-stick plastic means ink from photocopies will not adhere to the sheet protectors. An ESD protective symbol clearly identifies the sheet protectors as static dissipative while an embossed pattern reduces glare. The 5410 protectors hold 8.5 X 11 inch documents. The 5411 protectors hold A4 paper sizes.

3M has long been a leader in providing static control solutions to companies around the world. 3M provides a full range of solutions designed to help electronic products manufacturers develop and maintain complete ESD control programs. The updated 3M Static Control product catalog features 140 pages of electrostatic discharge solutions and is available online from [www.3m.com/static](http://www.3m.com/static).

## [About 3M Electronic Solutions Division](#)

3M Electronics Solutions Division offers innovative solutions to the electronics market, such as static control products; copper interconnect systems; cables and cable assemblies; carrier and cover tapes and trays; flexible circuits; embedded capacitor materials; and Textool brand test and burn-in sockets.

## About 3M

A recognized leader in research and development, 3M produces thousands of innovative products for dozens of diverse markets. 3M's core strength is applying its more than 40 distinct technology platforms - often in combination - to a wide array of customer needs. With \$24 billion in sales, 3M employs 79,000 people worldwide and has operations in more than 60 countries. For more information, visit [www.3M.com](http://www.3M.com).

3M and Textool are trademarks of 3M Company.

## Release Summary:

Static Dissipative Sheet Protectors from 3M are designed to be non-static generating in addition to protecting documents.
