

3M Annual Meeting Highlights 2015 Achievements and Execution of the 3M Playbook

3M Chairman, President and CEO Inge G. Thulin today highlighted 3M's solid 2015 performance while focusing on the company's execution of the 3M Playbook to deliver efficient growth. Thulin addressed 3M's 2016 Annual Meeting of Shareholders in Austin, Texas.

"We continue to execute well and invest in our businesses to create even greater value for our customers and our shareholders," Thulin said. "I continue to be pleased with our team's ability to effectively serve our customers and manage those things within our control. Our focus on operational excellence is enabling us to deliver premium returns even in a low-growth economic environment."

Thulin told shareholders how three key levers of the 3M Playbook – portfolio management, investing in innovation, and business transformation – are strengthening the enterprise.

In 2015, 3M enhanced its portfolio with acquisitions including Capital Safety, a global leader in fall protection, and Membrana, a technology leader which bolsters 3M's filtration business platform. 3M invested \$1.8 billion in R&D in 2015, while opening six new customer technical centers globally as well as a new state-of-the art laboratory in the U.S. The company continued to implement business transformation initiatives to enable it to serve customers with even greater efficiency and agility around the world.
