

3M Statement on EPA's PFAS Action Plan

ST. PAUL, Minn.--([BUSINESS WIRE](#))--3M released the following statement in response to the Environmental Protection Agency's PFAS Action Plan:

"3M supports EPA's creation of a PFAS Action Plan and looks forward to reviewing the plan in detail. 3M agrees with EPA moving forward with the Safe Drinking Water Act's maximum contaminant level process with respect to PFOA and PFOS. We support regulation rooted in the best-available science and believe that this plan may help prevent a patchwork of state standards that could increase confusion and uncertainty for communities.

"3M also urges the EPA to continue to fully engage with communities and to ensure action items in the plan are completed on a clearly-defined schedule. This will provide citizens with the highest degree of confidence in the quality of their drinking water."

About 3M

At 3M, we apply science in collaborative ways to improve lives daily. With \$33 billion in sales, our 93,000 employees connect with customers all around the world. Learn more about 3M's creative solutions to the world's problems at www.3M.com or on Twitter @3M or @3MNews.
