

3M suspends Russia business operations

After re-assessing our business in Russia, we have decided to suspend all operations there. Our focus continues to be on the safety of our colleagues and their families.

We are committing a \$2 million donation from 3Mgives to directly support relief efforts for the people of Ukraine. That is on top of the combined donations from 3Mers and 3M Foundation match, as well as the heartfelt direct donations of housing, money, and personal goods that our 3Mers have given to our colleagues in Ukraine. 3M business groups have also donated wound care and other medical supplies to doctors and medical workers assisting those in need.
